The district conference at Oran last week was well attended by the preachers and laymen of the Charleston district. Many subjects of interest were discussed and some good preaching done. All who attended got a spiritual uplift, and everyone was a unit on the expressing of their many thanks upon the hospitality of the people of Oran who so generously entertained the conference. We had the pleasure while there of witnessing the closing exercises of the Oran public school. There were six graduates, and each showed that their time had been well spent. Rev. M. T. Haw of Charleston made a very instructive and appropriate address on the occasion.

For good hay call on Chas. Behrens at warehouse opposite Mill B.

Quite a number of the Democratic exchanges are predicting the return of the State to Democratic ranks this fall, but the Citizen sees a different handwriting on the wall, and don't feel equal to the occasion of predicting the result until the votes are counted. While these said exchanges are telling of the return of the "go-a-fishing" Democrats and doing little else for the party, the Republicans are becoming thoroughly organized and within a short time will have a small army in the front ranks. They will have a full ticket in the field in every county in the state—more especially the counties that have heretofore gone Democratic, and we look for many surprises.—Scott County Citizen (Democratic).
